About Us: VSS is a forerunner in Virtual Assistant support services with a core focus in online Virtual Business Ownership training. Using everyday technology tools, we connect entrepreneurial minds across time and space; instructing students on how to "**Start, Grow, and Manage** their own online virtual business in cyberspace".

Clients empower VSS to handle some or all of their support requirements. We accomplish this by building strategic partnerships with dedicated vendors and a seasoned network of professionals, located worldwide.

Differentiating factors that makes us stand out: Our differentiation is in our fundamental approach to our clients, partners, and virtual team members. We strive to listen to the needs of our clients, provide quality results, easy accessibility and excellent technical support.

Website highlights: Our website is an extension of who we are, a creative and innovative team of professionals available to clients when they need us; offering a warm welcome to each visitor and providing information critical to their decision making process.

The Purpose Virtual Support Services fulfills: We provide world-class virtual support solutions with an emphasis on virtual office staffing strategies, real-time collaboration, virtual / telework implementation and training, and strategic innovations management. Our management team is an experienced group of professionals that offer creativity, innovation, flexibility, and leadership to keep our clients at the cutting edge of change.

Virtual Support Services on the Cutting Edge: Our cutting edge is the ability to provide reliable and professional support solutions that meet and exceed the expectations of our clients.

Virtual Support Services Greatest Business Success: Our greatest business success is the ongoing ability to flow with the needs of our clients.
